DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-17 are drawn to ~~an~~ various apparatus for delivering products, classified in class 53.
 - II. Claims 18-23, drawn to a process for dispensing products, classified in class 53.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process as claimed, can be practiced by another materially different apparatus. Examiner notes that Group I (claims 1-17) are broadly directed toward apparatus that are distinct from each other.

For example, claim 1 (iii), wherein a product delivery system is adapted to place a shuttle reservoir onto a pallet, can be accomplished via a robotic arm, a fork lift, or using any number of structures that are each distinct from each other.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
